A REACTIONARY ORDER.

A RULING of the postoffice department barring from the mails lectures on sex hygiene delivered in the Chicago public schools will be received with noise and exostulation by the purity experts who are responsible for this particular fad in educational development recently inflicted upon the helpless young of the species. It appears that it was a part of the program of the National League for Medical Freedom to mail parts of the lectures to parents in circular form. These lectures had been delivered in the high school to children by two physicians. There was evidently doubt in the minds of the leaguers, because they sent samples to the local postmaster asking a ruling, and the latter forwarded them to Washington.

Evidently there is attached to the department at Washington an old-fashioned and hidebound person whose business it is to decide, after long experience, what is and is not nasty. He is not in tune with the "new freedom." He is blind to the "great moral lessons" now being imparted to the young and impressionable. He may or may not be familiar with the out-of-date, little read and much quoted Pope, who spoke thus:

Vice is a monster of such horrid mien

That to be hated needs but to be seen.

Yet, seen too oft, familiar with its face.

We first endure, then pity, then embrace.

We heartily commend the last two lines of the foregoing to the consideration of those who pay the taxes which support the schools and who entrust to the care of the state the health, morals, minds and bodies of their children.

There may be some comfort to the parents of Chicago in the thought that the federal government is doing something to protect them from that to which their children are exposed.

Governor Oddie is out with a proclamation urging consumers to buy Nevada sugar, that they "may aid and support a new industry." What's the use when the two senators from this state, representing the business interests, vote for abolition of two of the greatest industries the state possesses? They stand on record as opposed to wool and sugar, and the sugar company announces that it will get out of business at the close of the sugar season of 1914.

If all Mexicans could shoot like the bandit at Bingham the war would be of short duration. The most suitable penalty for this arch criminal would be to send him to Carranza and have his experts skin the soles of his feet and make him walk ten miles, as they did in a recent case.

California is suffering from a surplus of holidays, and the man who wants to do business has to concentrate his efforts by burning the midnight oil. No quotations from San Francisco today. Holiday making and the carnival spirit are absorbing too much time on the coast.

Hetch Hetchy reservoir plans are occupying the attention of Senator Newlands to the exclusion of more important business in Nevada. Some day voters will realize that he regards Nevada as a pocket borough.

Labor is so scarce in Lyon county that the women are working in the potato fields with their husbands and brothers, harvesting the bumper crop of that locality. This is the kind of militancy that counts.

Humboldt county complains that it is overtaxed by the addition of nearly \$4,000,000 over last year. This suggests that a lot of citizens in that part of Nevada have been evading taxes for many years.

An imperious Cleveland saleslady refused to give John D. Rockefeller credit for 80 cents and made him feel like 30 cents. The common herd has no cause for complaint.

Goldfield has a monopoly of the brains of the state this week with the best teachers attending the institute. It is unfortunate

Christmas Cheer---All the Year

There are 365 happy days in the year for the possessor of a camera. Photography is instructive and enjoyable. It educates the eye, trains the hand and elevates the mind.

If there are children in your home give them a camera for Christmas. Nothing could be more appropriate and nothing would be more welcome.

A Camera Pleases at Once and the Pleasure Grows

The young folks will get more pleasure from picture taking than they could from any other source. In the spring and summer they will get renewed pleasure from it—and will cause them to become lovers of nature.

A camera for the boy or girl is an ideal gift. We have a new assortment of Kodaks, ranging in price from \$1.00 to \$65.00.

that the state board of education did not circulate the example of California by holding these sessions during the Christmas holidays and saving the pupils from the double vacation.

Senator Pittman is working for a railroad in Alaska. What is he doing for Nevada, now that he has slain the wool and sugar industries?

Reno is bad enough without having a station for the "toughest boys of the nation" established in that vicinity.

Cupid and Hymen rule at the white house this week and Mars has to shiver in the back yard.

TIPS FOR WAGES PROTESTS MAN IN CALIFORNIA

BLOATED CORPORATION COMPELS PAY PASSENGERS TO PUNGE UP.

SAN FRANCISCO, Nov. 22.—Both as a private citizen and as president of the California railroad commission John M. Eshleman scored the Pullman system at a hearing before high officials of the Pullman company. "I am convinced," he said, "that much of the trouble of the Pullman company is due to the fact that it does not pay sufficient wages to its employees, but practically compels them to make a living by getting the travelling public to dig up and come through."

"I am even prepared to say that if the Pullman company will raise its wage scale, and do away with the abuses of the tipping system the commission will be willing to listen to a plea for a raise in rates. As now operated the man who rides in a Pullman car is unable to obtain service unless he pays extra." He said a porter had told him: "What-ever else you do, don't touch our tips, as we can't live without them."

Among complaints made were that berths are often sold twice, that the upper berth is let down whether occupied or not, shutting off ventilation from the lower, that conductors refuse to honor telegraphic orders and that conductors hold out lowers to sell to belated arrivals for substantial tips.

YOUR BUSINESS APPRECIATED

This bank is not too large to give considerable attention to the little things which mean much to the welfare of the depositor. It is not too large to lend the weight of its counsel and support to the depositor whose dealings are small, but none the less important to him.

Its organization is such that all who bring their business here are assured of courteous treatment and appreciative attention, and it is large and strong and old enough to give perfect assurance of safety in dealing with it.
